## Downloading RFA1.00.24

1. Turn the POWER OFF and remove the top Glass
2. Remove the back cover from the LCD.

3. Remove the PCMCIA in the top slot of the LCD.
4. Behind the 2 Memory Cards on the bottom left corner you will find Jumper Pins labeled JP1
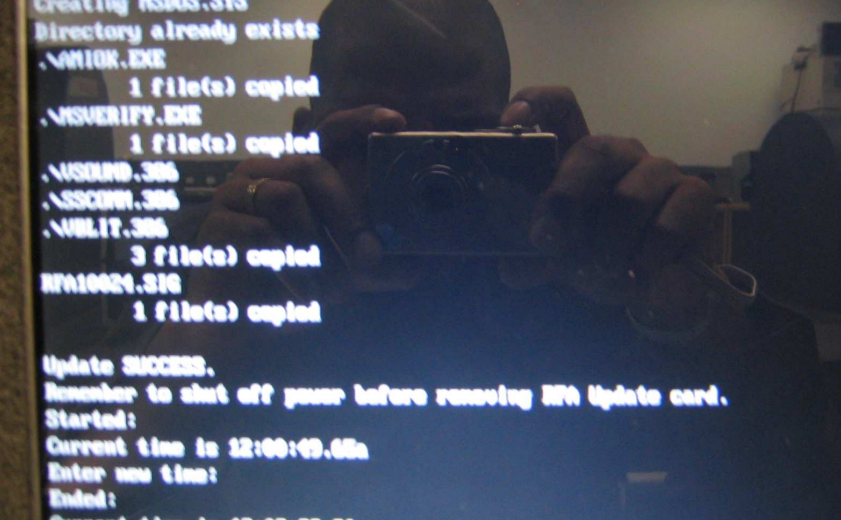

5. Use a jumper to close the circuit

6. Insert the new PCMCIA Card labeled RFA1.00.24 into the top slot of the PCMCIA.
7. Power the machine up

8. Wait a few minutes (about 5 minutes) while the new program downloads. As it downloads, it will show information scrolling up as the picture below

9. On completion, this is what will come up: Update SUCCESS, as below:

10. Power the machine OFF
11. Remove the RFA1.00.24 Card and replace it with the old one.
12. Power the machine ON.
