IGT

CN: 4063 Rev: G

MANDATORY NOTICE

MANDATORY FIRMWARE CUSTOMER NOTIFICATION

SUBJECT: Coin In Acceptance Condition   DATE: 02 Jun 2005

PRODUCT: S2000, Vision   GAME TYPE: See below

SCOPE: All machines utilizing the obsolete programs

SYMPTOM(S):

1. In an extremely rare set of circumstances, inserted coins may not be handled correctly as stated on CN4108. This issue does not affect machines using multi-coin, multi-line paytables.

2. When an S2000 or Vision game was configured as a link progressive, it was possible for the game to misread a progressive amount sent by some progressive controllers. Under very rare circumstances, if the in-machine meter were connected directly to the processor board and a jackpot were to hit during the misread, the in-machine meter would flash an incorrect amount. However, the progressive overhead meter would display the correct amount.

    ***NOTE: This condition exists in ALL previous versions of Vision and S2000 games with link progressive capabilities; however, only current programs that contain this condition (SG000208, SG000225, SG000248, SG000251, SG000281, and SG000328**) **have been listed in the obsolete program column.**

3. For all Vision Pinball machines using SG000248 and SG000258, when the game entered the Pinball bonus game, the game picked a virtual number that determined an award in the bonus zone. Due to an error in the evaluation for the bonus zone in the affected programs, the game picked an incorrect bonus award amount changing the overall payback percentage for the game.

ENHANCEMENT(S):

1. SAS 6.0 functionality has been added.

2. S2000 programs SG000312 and SG000363, Barcrest S2000 program SG000378, and Vision program SG000380, support the MD3 O/S, which combines single denomination and multi-denomination capabilities and reporting in one program.
    NOTE: The Vision replacement program SG000341 should only be used for games that cannot be configured as a multi-denomination and for generic bonus games; all other Vision games should use SG000380 (refer to the PSR for supported games).
    NOTE: Although multi-denomination functionality is provided in Vision program SG000380, the 'EZ Play Selectable Multi-Denomination Keypad' is not supported.

3. Support for the IGT Progressive Controller (IPC) has been added to the S2000 program SG000312.

4. SG000378 supports the Barcrest games Big Bucks Bonus, Double Triple Diamond Deluxe with Cheese, Money Mad Martians, Quack Shot, King Cash, Top Dollar, Double Top Dollar, and Pinball.

NOTE: When upgrading to the new programs, VS011xxx must be used (refer to the PSR to determine the correct version program required for your jurisdiction).

IGT releases products and modifications based on jurisdictional approvals received. The only area(s) authorized to incorporate change(s) in this CN are listed in the "Approved Area(s)" field. The "Pending Area(s)" field indicates areas for which the replacements are pending development, submittal or approval. In no circumstance can this modification be implemented in any other jurisdiction until approvals are received.

NOTE: The programs listed may be referred to as either revoked or obsolete in GLI jurisdictions. Contact your regulatory agency for program status and any possible required replacement time frames.

REASON FOR CN REVISION:

Revision A – 02 Jun 2005: The new program SG000343 was added.

Released SG000312 for use in ALB, AZI, BCL, CAI, CTI, IA, IAI, IN, KSI, LA, LAI, MAN, MII, MO, MSI, NDI, NMI, NS, NYI, ORIS, SASK, SD, SDI, and WII.

Revision B – 03 Jun 2005: Released SG000312 for use in IL.

Revision C – 08 Jun 2005: The version program configuration note has been revised. Released SG000312 for use in CRUIS and NV.

Revision D – 17 Jun 2005: The replacement program for BAH, MI, MS, NJ, and ONT was changed from SG000312 to SG000342. BAH was removed from the pending area of obsolete program SG000224. ARMY, ARUBA, BRB, JAM, QUE, SKREA, and YK were added to the pending area of SG000342. QUE was added to the pending area of SG000353. Released SG000312 for use in AIRF and CO.

Revision E – 23 Jun 2005: Released SG000312 for use in NCI, NMT, and PR. Released SG000314 for use in CRUIS and NV.

Revision F – 29 Aug 2005:   The replacement program was changed from SG000313 to SG000361. The replacement program was changed from SG000342 to SG000363. MS was removed from the pending area of obsolete program SG000224. AIRF was added to the pending area of obsolete program SG000215. JAM was removed from the pending area of SG000363 and added to the approved areas of SG000312. NMT was added to the pending area of SG000353.

Released SG000343 for use in NV. Released SG000314 for use in AZI, BCL, CAI, CO, CTI, IA, IAI, IN, KSI, LA, LAI, MII, MO, MS, MSI, NDI, NMI, NYI, ORI, ONT, SDI, and WII.

Revision G – 05 Oct 2005:   Released SG000314 for use in NJ.
The replacement program was changed from SGL00339 to SGL00367.
The replacement program was changed from SG000361 to SG000378.
The replacement program was changed from SG000308 to SG000341 for single denomination only games and SG000380 for all others.
The replacement program was changed from SG000361 to SG000382 for Golden Dragon.
MI was removed from the replacement program SG000314.
Enhancement #2 was revised. Enhancement #3 was revised; the Barcrest replacement program SG000378 does not support IPC capabilities.
