#### Black Rhino Slot

This is a standard five reel, nine line slot game.

#### Super 8 Line Slot

This is a nine reel, eight line game. This game pays only the highest winner per line. Bonus features are “ANY 7 PAYS”. (A player will win credits for any combination of sevens from three to nine sevens.) This game pays special for 9 of any symbol. This game pays for all symbols when the symbols are located in the corners (called 4 Corners). The fruit basket bonus meter increments 1 credit per 36 credits played. The player will win the pool when any 9 fruits are hit. When a plus pattern of bell symbols are hit, the fever is initiated. For the next nine games, the player receives 10 credits per one credit bet for every bell that appears. The maximum bet during Fever Mode is the same as the bet used to initiate Fever Mode.

#### Lion Fish Slot

Lion Fish is a five reel, nine line video slot game with a scatter pay feature. The player has the opportunity to place bets on as many of the paylines as the player chooses with a maximum bet of five coins per payline (45 total coins). The player wins by obtaining combinations which match those on the payglass.

Game combinations are determined from left to right and only the highest win per line is paid. Each line win is multiplied by the number of coins played on that line. Lion Fish symbols are wild and substitute for any other symbol.

Scatter pays pay on any combinations consisting of three, four or five Lion Fish or Snorkel symbols, regardless of where they are on the screen. Only the highest scattered win is paid for each game and is added to any other coinciding line pays. Each winning scatter pay is multiplied by the total number of credits bet for that game.

“Double Bucks Slot”

This is a 5-reel, 9-line game. The game has a “Scale” symbol which is wild and substitutes for all symbols except the “Coin” symbol. If one or more “Scale” symbols are used in a winning combination, the award is doubled. If three or more scattered “Coin” symbols appear on the reels, the player will receive a bonus of 10 free games with a bet equal to the game, which started the bonus. During the free games, all pays are tripled.

① Following are steps used to calculate the FI-300 Kobetron Signature:

Place the 72 or 80 pin SIMM card in the FI-300 Kobetron adapter.

Choose an option: Standard (for Sound SIMMs) or CG (for Graphic SIMMs). The 8-digit FI-300 signature will show in the display.

The previously listed software is to be used in conjunction with the previously approved Key program KEY00022 and/or KEY00040, dependant upon which processor board is installed in the device.

The software evaluated by **Gaming Laboratories International, Inc.** clearly shows in the English language the description of all the possible bets, and the indication of the type or value of the medium of payment that the model accepts. It also has adequately expressed a description of all the winning combinations, the amount of the corresponding prizes for each winning combination, and the indication that the game voids all pays and plays for all wagers in the event of a malfunction.

All information regarding public return percentages is presented in the attached CD.
